

CAPABILITY STATEMENT

ABOUT US

Alpha Tec Services, Inc. split off from predecessor company, MCRI Electric, Inc. (DUNS #080392650), after 3 years of our key experienced personnel providing electrical and plumbing services. Luis Palma was part owner of MCRI Electric, Inc. for 3 years before deciding to start his own company that not only works in the electrical and plumbing services industry, but has expanded to include a variety of services. Alpha Tec Services, Inc. coordinates and hires experienced subcontractors with many years of combined experience primarily from its base in San Diego, California, but we are willing and able to travel to meet client expectations. Alpha Tec Services, Inc. places the customer's requirements first, provides competitive rates, delivers projects on time, within budget, and in a safe manner.

WHY CHOOSE US?

Alpha Tec Services, Inc. subcontracts with a California C-10 licensed electrician and C-38 licensed plumber, ensuring that your electrical and plumbing project will be installed to code standards. In addition, we subcontract with a C-61/D-63 construction cleanup contractor to clean up and/or remove debris to include concrete, dirt, scrap lumber, plaster, drywall, any paint or adhesive products from windows, floors, ceramic tile, and bathroom fixtures from any construction project. At Alpha Tec Services, Inc. – we do it all!

SAFETY

Alpha Tec Services, Inc. is committed to safety with several subcontractors trained to the Occupational Safety and Health Administration (OSHA) 30-hour General Industry Outreach Training. We are focused on ensuring a safe work place for our employees and subcontractors.

QUALITY

Alpha Tec Services, Inc. is committed to quality work, quality performance, and quality customer service.
